

DIN RAIL DISPLAY METER

Technical Parameter

|                                  |                                |
|----------------------------------|--------------------------------|
| Supply Voltage / Frequency Range | AC 80V-500V / 50-60HZ          |
| Current Range                    | AC 0-100A                      |
| Color                            | Red                            |
| Discrepancy Range                | ± 2%                           |
| Rated Insulation Voltage         | 660V                           |
| Sampling Rate                    | 1 time /s                      |
| Input loop power consumption     | ≤2VA                           |
| Altitude                         | ≤2000m                         |
| Ambient Temperature              | - 50~55                        |
| Humidity                         | 50% and 40°C Condensation free |
| Storage Temperature              | - 30℃ ~70℃                     |

● This product is prohibited using for frequency conversion, inverter,the power environment with high harmonic interference.
